

THE BEST SCHOOLS TO PRACTICE DIVING AT • COSTA DEL SOL •

Costa del Sol beaches' seabeds hide a lot of secrets waiting to be discovered. Diving is an activity not only limited to summer, but subject to be practiced for the whole year thanks to the good climate and the province calm waters. If you want to learn to dive, you will find the best diving schools in the coastal towns. Plunge yourself in a trip on the seabed!

SCUB AZUL

In Scub Azul they live by and for diving. If you are in Torremolinos and want to explore the sea beds, it is one of the best options in the area. From diving courses for beginners to advanced ones are offered here. And the best... open the whole year!

ABYSUB BUCEO

In Fuengirola Sports Marina one of the best Costa del Sol diving schools is located: Abysub Buceo. This center gives you the chance to know the underwater world in a safe and funny way, always learning with the best professionals. His objective is to make you get a different approach to Málaga province!

HAPPY DIVERS

Do you know the highest qualified diving school in Spain? Happy-Divers Marbella is the only that has PADI 5* Career Development Center (CDC) and 5* IDC Center, and the first National Geographic and TecRec center opened in Spain. Its facilities have all services, even swimming-pools and training room!

PETUBO DIVING CENTER

In Centro de Buceo Petubo they focus on training as the way to discover the passion for scuba diving. All level courses and specialties are given and underwater photography championships are organized. They offer weekend activities along the whole year to Málaga coast highlighted points (Calahonda, Maro or La Herradura).

LET'S DIVE AT MARBELLA

In Marbella's very sports marina you will find Bucea en Marbella school. They work with small groups with the goal they learn as much as they can. Here you can attend PADI courses from beginner to diving professional instructor levels, scuba diving baptism and guided dives. You can take any course with Nitrox, enriched air, what lasts time under water!
